HACKDATA 2.0

10-11 FEB, 2018

{ THE DATA SCIENCE HACKATHON }

SHIV NADAR UNIVERSITY

ABOUT SHIV NADAR UNIVERSITY

Shiv Nadar University is a multidisciplinary, diverse, research focused, student-centered university, with a full range of academic programs at the undergraduate, postgraduate and doctoral level. Students at the University thrive in an environment of collaboration and respect where ideas are rooted in academic excellence and personal integrity.

Attending University on a 286 acres campus in India's NCR is a cosmopolitan experience where students enjoy global perspective and a sense of community infused with respect for people, ideas and a spirit of inclusiveness.

ABOUT ACM & ACM-W CHAPTERS @ SNU

ACM SNU Student Chapter is the Computer Science society at Shiv Nadar University. It organizes programming competitions and practice sessions, research talks by professionals from academia and industry, tutorials on technical subjects, and other computer science outreach activities on campus. These activities aim to promote appreciation of the intellectual richness of the discipline while also developing valuable professional skills in the student community.

- ACM-W SNU supports, celebrates, and advocates for the full engagement of women in all aspects of the computing field, working in the larger community to advance the contributions of technical women. It aims to build a support network for students at Shiv Nadar University and provide opportunities that include competitions and awards, talks by visiting lecturers and providing internship opportunities, both general and women-exclusive, that help provide a platform for students to apply and showcase their skills.

ABOUT HACKDATA 2.0

HackData 2.0 is an interdisciplinary and open-ended event that would bring together creative minds from a variety of fields under one roof. Engineers, business students, designers and entrepreneurs would together build solutions utilizing data science in useful and positive ways.

A 30 hours event packed with sessions, workshops and networking activities! Build a product using any dataset available in public domain and get a chance to take away home loads of swag and prizes!

Expected participants: 150+
Colleges: 20+

ABOUT HACKDATA 2.0 MISSION

The mission of HackData 2.0 is to create a gender diverse and technologically inclined community. Our goal is to create opportunity for newcomers to explore a hackathon environment while learning and solving compelling problems.

SPECIAL PRIZE FOR ALL WOMEN'S TEAM

There is a special award category for the all women's team that makes the best project! This would motivate females to form and work in all women's teams.

WHY SPONSOR US

HackData 2.0 provides a platform for students to work with data and come up with innovative solutions, visualizations, analysis and products.

HackData 2.0 will attract the very best students from top schools for engineering and computer science in the NCR. Sponsorship lets companies and organizations interact directly with this talent pool via tech talks, freebies, branded prizes, and more. **You can showcase your API or product, and see students make awesome projects with them .**

Sponsorship is a great way to increase your company's presence and **popularize your brand among 2500+ college students of Shiv Nadar University and 10000+ college students from NCR.**

The event will also feature press coverage, making sponsorship a great way to increase your company's presence. Our past successful events enables us to plan for bigger and better hackathons in the years to come, so companies who continue to work with us get to influence an increasingly bigger pool of talent.
